EU Internet Ventures B.V. (**EUIV**) is listed in DeNederlandscheBank's (**DNB**) public register as a crypto service provider under number R179508. DNB supervises EUIV's compliance with the *Anti-Money Laundering and Anti-Terrorist Financing Act* (Wet ter voorkoming van witwassen en financiering van terrorisme – Wwft) and the Sanctions Act (Sanctiewet 1977 – Sw). Consequently, EUIV is not subject to prudential supervision by DNB or conduct supervision by the Dutch Authority for the Financial Markets (**AFM**). This means that prudential and operational requirements are not monitored and that specific financial consumer protection rules are not applicable to those customers that are contracting with EUIV.

Part B Service Terms

Service A **Crypto Asset Buy and Sell Services – Exchange Terms**

These Exchange Terms apply to users of the Banxa Crypto Asset Buy and Sell Services and are incorporated by reference into the Banxa General Terms. The Crypto Asset Buy and Sell Services is a Service for the purposes of the Banxa General Terms. In the event of any inconsistency between these Exchange Terms and the Banxa General Terms, these terms will prevail to the extent of the inconsistency.

1 Risk disclosure and legal status of Crypto Assets

- (a) The buying and selling of Crypto Assets involve significant risks. You should never trade more than you can afford to lose. Prices are highly volatile, and you may increase or lose value in your assets at any time.
- (b) There is no legal entity that controls and regulates Crypto Assets. Crypto Assets rely on decentralised blockchain technology to safeguard assets and its movements. Crypto Asset transactions are irreversible. You should carefully check transaction instructions before initiating any Crypto Asset transaction. In the event of a crisis, there is no entity that will protect the Crypto Asset market to minimise your losses.
- (c) Crypto Assets expose you to operational risks, including, for example, where you may suffer losses due to failure of hardware, software and internet connections.
- (d) You should carefully assess your financial situation, risk appetite, relevant experience and knowledge before you decide to purchase any Crypto Asset. You should also seek advice from an independent and suitably licensed advisor.
- (e) The legal status of Crypto Assets remains uncertain in many countries and jurisdictions around the world. Crypto Assets may be legally prohibited in certain countries or jurisdictions, or be subject to specific restrictions and limitations with which you are solely responsible for complying at your own risk and expense. We take no position on the legal status of any Crypto Assets.
- (f) It is your responsibility to undertake your own investigations and enquiries and satisfy yourself of the legal status of the Crypto Asset. You acknowledge and agree that your use of Crypto Assets is at your own risk.
- (g) We will only support the Crypto Assets we determine from time to time (in our absolute discretion). However, it is your responsibility to ensure that you do not use any Crypto Assets that are regulated or financial products in your jurisdiction. We will not support regulated or financial products in any form.
- (h) NFTs exist only by virtue of the ownership record maintained in the applicable blockchain network and/or distributed ledger. Any transfer of title that might occur in any unique digital asset occurs on the decentralized ledger within such blockchain network and/or distributed ledger. We do not guarantee that we can effect the transfer of title or right in any NFTs or other digital assets, or that any associated payment will be successful.

Before you confirm your Purchase Order or Sale Order, a bid or ask quote for the price of the Order will be displayed. The bid or ask price quote to buy or sell may be different from the aggregated historical market price displayed in the price chart. Any price displayed is for informational purposes only unless provided in the Order. We obtain price data from one or more Service Providers.
- (c) Once we receive your Order, we will display:
 - (i) for Purchases, a spot exchange rate for Fiat to the Crypto Asset (plus any fees) (**Purchase Price**); or

 the Purchase Price and Sale Price are each, and together, the **Price**.
- (d) We may vary the Price or cancel any Order that is not confirmed by you within five (5) seconds of us displaying the Price.
- (e) The final price is the locked-in Price which appears on the Banxa Platform at the time you execute an Order (**Final Price**). By clicking the 'Create Order' button or similar, you are executing your Order (**Execution**) and authorising us to process the transaction at the Final Price.
- (f) To guarantee the Final Price, you must immediately send us proof of payment. Failing to do this as soon as possible shall mean that we are unable to guarantee you the Final Price. Until then, any Order by you shall be considered as pending and incomplete.

However, Crypto Asset transfers have historically completed within one (1) day. The timing may depend on factors outside of Banxa's control including the block processing timelines on the underlying blockchain protocol associated with the Crypto Asset.
